

CIVIL AVIATION DIRECTIVE – 18

+

NATIONAL TRANSPORT OF DANGEROUS GOODS PROGRAMME

CIVIL AVIATION AUTHORITY OF MALAYSIA

INTENTIONALLY LEFT BLANK

Introduction

In exercise of the powers conferred by section 24O of the Civil Aviation Act 1969 (Act 3), the Chief Executive Officer makes this Civil Aviation Directive 18 – National Transport of Dangerous Goods Programme (CAD 18 – NTDGP), pursuant to Part XIII which includes Regulation 129, 130, 131, 132, 133, 134, 135, 189 and 195 of the Malaysian Civil Aviation Regulations (MCAR 2016)

This CAD has been prepared in accordance with related ICAO Annex (Annex 18) and Doc, Civil Aviation Regulation 2016 (MCAR), CADs, ICAO Doc 9284 (Technical Instructions for the Safe Transport of Dangerous Goods by Air) adopted and adapted in various parts of Civil Aviation Regulations 2016 (MCAR) and related Civil Aviation Directives (CAD).

This Directive is published by the Chief Executive Officer under section 24O of the Civil Aviation Act 1969 (Act 3) and comes into effect on 20 May 2021.

Any person who contravenes any provision in this CAD commits an offence and shall on conviction be liable to the punishment under section 24O of the Civil Aviation Act 1969 (Act 3).

(Captain Chester Voo Chiee Soon)
Chief Executive Officer
Civil Aviation Authority of Malaysia

Civil Aviation Directive components and Editorial practices

This Civil Aviation Directive is made up of the following components and are defined as follows:

Standards: Usually preceded by words such as “*shall*” or “*must*”, are any specification for physical characteristics, configuration, performance, personnel or procedure, where uniform application is necessary for the safety or regularity of air navigation and to which Operators must conform. In the event of impossibility of compliance, notification to the CAAM is compulsory.

Recommended Practices: Usually preceded by the words such as “*should*” or “*may*”, are any specification for physical characteristics, configuration, performance, personnel or procedure, where the uniform application is desirable in the interest of safety, regularity or efficiency of air navigation, and to which Operators will endeavour to conform.

Appendices: Material grouped separately for convenience, but forms part of the Standards and Recommended Practices stipulated by the CAAM.

Definitions: Terms used in the Standards and Recommended Practices which are not self-explanatory in that they do not have accepted dictionary meanings. A definition does not have an independent status but is an essential part of each Standard and Recommended Practice in which the term is used, since a change in the meaning of the term would affect the specification.

Tables and Figures: These add to or illustrate a Standard or Recommended Practice, and which are referred to therein, form part of the associated Standard or Recommended Practice and have the same status.

Notes: Included in the text, where appropriate, Notes give factual information or references bearing on the Standards or Recommended Practices in question but not constituting part of the Standards or Recommended Practices;

Attachments: Material supplementary to the Standards and Recommended Practices or included as a guide to their application.

It is to be noted that some Standards in this Civil Aviation Directive incorporates, by reference, other specifications having the status of Recommended Practices. In such cases, the text of the Recommended Practice becomes part of the Standard.

The units of measurement used in this document are in accordance with the International System of Units (SI) as specified in CAD 5. Where CAD 5 permits the use of non-SI alternative units, these are shown in parentheses following the basic units. Where two sets of units are quoted it must not be assumed that the pairs of values are equal and interchangeable. It may, however, be inferred that an equivalent level of safety is achieved when either set of units is used exclusively.

Any reference to a portion of this document, which is identified by a number and/or title, includes all subdivisions of that portion.

Throughout this Civil Aviation Directive, the use of the male gender should be understood to include male and female persons.

Record of Revisions

Revisions to this CAD shall be made by authorised personnel only. After inserting the revision, enter the required data in the revision sheet below. The '*Initials*' has to be signed off by the personnel responsible for the change.

1 General

1.1 Description

1.1.1 Citation

1.1.1.1 These Directives are the Civil Aviation Directives 18 – National Transport of Dangerous Goods Programme (CAD 18 - NTDGP), Issue 01/Revision 00, and comes into operation on 20 May 2021.

1.1.1.2 This CAD 18 – NTDGP, Issue 01/Revision 00 will remain current until withdrawn or superseded.

1.1.2 Applicability

1.1.2.1 The National Transport of Dangerous Goods Programme in this CAD 18 are for all operators and relevant agencies involved in the carriage of dangerous goods by air

1.1.2.2 This CAD prescribes the requirements to assist all operators and relevant agencies in handling, to implement procedures and comply with the regulation for the carriage of dangerous goods

1.1.3 Revocation

1.1.3.1 This CAD revokes the National Transport of Dangerous Goods Programme 1st Edition dated 1st August 2019.

1.1.4 This NTDGP consists of:

- a) The requirements to operator involved in transport of dangerous goods by air;
- b) The responsibilities of both security and non-security staff which involve with dangerous goods awareness;
- c) The safety standards for an acceptable level of control of the radiation, criticality and thermal hazards to persons, property and the environment that are associated with the transport of radioactive material;
- d) The requirements that must be satisfied to ensure safety and to protect persons, property and the environment from the effects of radiation in the transport of radioactive material;
- e) The requirements concerning the training programmes of dangerous goods established and maintained by operators detailing the selection, qualification, training, certification and motivation of dangerous goods; and
- f) Reporting procedures for dangerous goods incidents and accidents.

1.2 Limitation of Dangerous Goods on aircraft

- 1.2.1 The dangerous goods shall be carried in accordance with the Technical Instructions as provided under regulations 132 and 133 of the MCAR 2016.
- 1.2.2 Paragraph 1 shall not apply to the transport of dangerous goods if it falls with the limitations, exemption or exception under Chapter 3 of the Technical Instructions.

1.3 Definitions

In this NTDGP, unless the context otherwise requires—

Agent means any person who undertakes the responsibilities or carries out any of the functions of an operator or a shipper, as the case may be, on behalf of the operator or shipper in relation to the carriage of munitions of war or dangerous goods;

Authority means the Civil Aviation Authority of Malaysia established under the Civil Aviation Authority of Malaysia Act 2017 [Act 788];

Baggage means personal property of passengers or crew carried on an aircraft by agreement with the operator;

Cargo means any property carried on an aircraft other than mail and accompanied or mishandled baggage;

Cargo aircraft means an aircraft, other than an aircraft that carries passengers, which is carrying goods or property;

Combination packaging means a combination of packaging for transport purposes, consisting of one or more inner packaging secured in an outer packaging in accordance with the relevant provisions of Part 4;

Consignee means any person, organisation or government which is entitled to take delivery of a consignment;

Consignment means one or more packages of dangerous goods accepted by an operator from one consignor at one time and at one address, receipted for in one lot and moving to 1 consignee at 1 destination address;

Crew member means a person assigned by an operator to duty on an aircraft during a flight duty period;

Dangerous Goods means article or substances which are capable of posing a risk to health, safety, property or the environment and which are shown in the list of dangerous goods in the Technical Instructions, or which are classified according to the Technical Instructions;

Dangerous goods accident means an occurrence associated with and related to the transport of dangerous goods by air which results in fatal or serious injury to a person or major property or environmental damage;

Dangerous goods incident means an occurrence other than a dangerous goods accident, associated with and related to the transport of dangerous goods by air, not necessarily occurring on board an aircraft, which results in injury to a person, property or environmental damage, fire, breakage, spillage, leakage, of fluid or radiation or other evident that the integrity of the packaging has not been maintained or any occurrence relating to the transport of dangerous goods which seriously jeopardises the aircraft or its occupants;

Dangerous Goods Security means measures or precautions to be taken by operators, shippers and others involved in the transport of dangerous goods aboard aircraft to minimise theft or misuse of dangerous goods that may endanger persons or property;

Designated postal operator means any governmental or non-governmental entity officially designated by a Universal Postal Union (UPU) member country to operate postal services and to fulfil the related obligations arising from the acts of the UPU Convention on its territory;

Exception. means a provision in the Technical Instructions which excludes a specific item of dangerous goods from the requirements normally applicable to that item;

Excess baggage means baggage which a passenger has presented to check-in as accompanied checked baggage, but which exceeds the passenger's baggage allowance specified by the operator and which is consequently consigned as cargo in order to be sent to the same destination as the passenger;

Exemption means an authorisation, other than an approval, granted by an appropriate national authority providing relief from the provisions of the Technical Instructions;

Flight crew member means a licensed crew member charged with duties essential to the operation of an aircraft during a flight duty period;

Freight forwarder means a person or organisation who offers the service of arranging the transport of cargo by air;

Handling agent means an agency which performs on behalf of the operator some or all of the operator's functions including receiving, loading, unloading, transferring, or other processing of passengers or cargo;

Mail means dispatches of correspondence and other items tendered by, and intended for delivery to, postal services in accordance with the rules of the Universal Postal Union (UPU);

MCAR means the Malaysian Civil Aviation Regulations;

Munitions of wars means any weapons and ammunition designed for use in warfare or against any person, including any part designed for such weapons and ammunition;

Operator means a person, organisation or enterprise engaged in or offering to engage in an aircraft operation.

Outer packaging means the outer protection of a composite or combination packaging together with any absorbent materials, cushioning and any other components necessary to contain and protect inner receptacles or inner packaging;

Overpack means an enclosure used to contain 1 or more packages and to form 1 handling unit for convenience of handling and stowage;

Package means the complete product for the packing operation consisting of the packaging and its contents prepared for transport;

Packaging means the receptacle and any other components necessary for the receptacle to perform its containment function;

Proper shipping name means the name used to describe a particular article or substance in every shipping document and notification and, where appropriate, on packaging;

UN number means the four (4) digit number assigned by the United Nations Committee of Experts on the Transport of Dangerous Goods to identify a substance or a particular group of substances; and

Unit load device means any type of freight container, aircraft container, aircraft pallet with a net, or aircraft pallet with a net over an igloo, except for -

- a) an overpack; or
- b) a freight container for radioactive materials.

2 Operator and Shipper Responsibilities

This Chapter provides the requirements to operator and shipper for the purpose of the carriage of dangerous goods by air.

2.1 General obligations of operator and shipper

- 2.1.1 For the purpose of ensuring the compliance with the Technical Instructions, operator and shipper shall have the latest ICAO Doc 9284 Technical Instruction in their safekeeping.
- 2.1.2 The operator and shipper shall not transport any non-dangerous goods in accordance with the Technical Instructions and this NTDGP.
- 2.1.3 No operator shall carry dangerous goods or munitions of war to or from Malaysia or transiting in Malaysia unless he holds a permit issued by the Authority and in accordance with Chapter 1, Variations Notified By States, Technical Instructions.
- 2.1.4 The operator shall designate and specify a person (coordinator) to CAAM within its administration at all operating stations to be responsible for ensuring compliance for transportation of dangerous goods by air with the Technical Instructions and this NTDGP. The person shall be a local citizen and training requirement as specified in paragraph 2.8 Chapter 5.

2.2 Operator's responsibilities

- 2.2.1 The operator and its agent shall not accept any dangerous goods for carriage by air unless—
 - a) dangerous goods are accompanied by a completed and properly executed dangerous goods transport document and a signed declaration, except
 - b) where the Technical Instructions specify that such document is not required; and
 - c) the package, overpack or freight container containing the dangerous goods has been inspected in accordance with the acceptance procedures contained in the Technical Instructions and all accompanying transport documents have been verified.
- 2.2.2 The operator and its agent shall ensure that—
 - a) all packages and overpacks containing dangerous goods and freight containers containing radioactive materials are loaded, properly secured and stowed on an aircraft in accordance with the provisions of the Technical Instructions;
 - b) before a unit load device is loaded on board the aircraft, the unit load device has been inspected and found free from any evidence of leakage from, or damage to, any dangerous goods contained therein;

- c) no leaking or damaged packages, overpacks or freight containers are loaded on the aircraft;
- d) no dangerous goods are carried in an aircraft cabin occupied by passengers or on the flight deck of the aircraft, except in circumstances permitted by the provisions of the Technical Instructions;
- e) any hazardous contamination found on the aircraft as a result of leakage or damage to dangerous goods is removed without delay and if the aircraft has been contaminated by radioactive materials, it shall immediately be taken out of service and not returned to service until the radiation level at any accessible surface and the non-fixed contamination are not more than the values specified in the Technical Instructions;
- f) any packages containing dangerous goods which might react dangerously one with another shall not be stowed on the aircraft next to each other or in a position that would allow interaction between them in the event of leakage;
- g) any packages of toxic or infectious substances shall be stowed on the aircraft in accordance with the provisions of the Technical Instructions;
- h) any packages of radioactive materials shall be separated from persons, live animals and undeveloped film, in accordance with the provisions in the Technical Instructions, when stowed on the aircraft;
- i) the goods are secured in the aircraft in such a manner that will prevent any movement in flight which would change the orientation of the packages or which would cause damage to the packages;
- j) in the case of packages containing radioactive materials, the securing shall be adequate to ensure that the separation requirements as specified in the Technical Instructions are met at all times;
- k) packages of munitions of war or dangerous goods bearing the “Cargo aircraft only” label must be loaded in accordance with the provisions in the Technical Instructions;
- l) passengers are warned as to the type of goods that they are prohibited from transporting on board the aircraft as checked baggage or carry-on articles; and
- m) packages containing dangerous goods which might react dangerously together, shall not be stowed next to each other or in a position that would allow interaction between them in the event of leakage.

2.2.3 For purposes of the inspections under paragraphs 2.2.1 and 2.2.2, the operator and its agent shall use an acceptance checklist as specified in **Appendix A**.

2.2.4 The operator of any aircraft flying for the purpose of commercial air transport shall ensure that all flight crew, cabin crew and other employees are provided with such information and training as will enable them to carry out their responsibilities with

regard to the carriage of dangerous goods, including the actions to be taken in the event of emergencies involving dangerous goods.

- 2.2.5 The operator of any aircraft on which dangerous goods are to be carried as cargo and its agent shall ensure that, as soon as practicable and before any flight begins, the pilot-in-command of the aircraft is provided with such information as is specified in Part 7 of the Technical Instructions.
- 2.2.6 The operator of an aircraft registered in Malaysia which is involved—
- a) in a dangerous goods accident whilst carrying any dangerous goods as cargo on the aircraft; or
 - b) in a dangerous goods incident in which, in the reasonable opinion of the operator, dangerous goods carried as cargo on the aircraft may be involved,
- shall provide information, without delay, to emergency services or rescue personnel responding to the dangerous goods accident or dangerous goods incident and the appropriate authorities and the State in which the dangerous goods accident or dangerous goods incident occurred about the dangerous goods onboard, as shown on the written information to the pilot-in-command.
- 2.2.7 In the event of any in-flight emergency, the operator shall require its pilot-in-command carrying munitions of war or dangerous goods as cargo to inform the appropriate air traffic services unit, as soon as reasonably practicable, of those dangerous goods in detail or as a summary or by reference to the location from where the detailed information can be obtained immediately.
- 2.2.8 The operator of which dangerous goods are to be carried and its agent shall ensure that all packages or overpacks containing dangerous goods and freight containers containing radioactive materials are inspected for signs of damage or leakage upon unloading from the aircraft or into a unit load device.
- 2.2.9 Separation, segregation, and security
- The operator shall –
- a) stow packages of poisons and infectious substances in accordance with the Technical Instructions;
 - b) stow radioactive materials separate from persons, live animals, and undeveloped film in accordance with the Technical Instructions;
 - c) protect the dangerous goods loaded on an aircraft from being damaged; and
 - d) secure such goods in the aircraft in a manner that will prevent any movement in flight which would change the orientation of the packages.
- 2.2.10 Loading inspection

The operator shall not load –

- a) a package or overpack containing dangerous goods onto an aircraft or into a unit load device unless it has been –
 - 1) inspected immediately prior to loading; and
 - 2) found free from evidence of leakage or damage.
- b) a unit load device onto an aircraft until the device has been –
 - 1) inspected immediately prior to loading; and
 - 2) found free of any evidence of leakage from, or damage to, any dangerous goods contained within.

2.2.11 Unloading inspection

The operator who carries a package or overpack containing dangerous goods by air shall inspect the package or overpack for signs of damage or leakage when unloading from the aircraft or unit load device.

2.2.12 Removal of damage or leakage

- a) Where evidence of damage or leakage is found when unloading an aircraft, the operator shall –
 - 1) inspect the area of the aircraft where the dangerous goods or unit load device was stowed for damage or contamination; and
 - 2) remove any hazardous contamination.
- b) The operator shall ensure that the aircraft is not permitted to fly for the purpose of commercial air transport if the operator knows or suspects that radioactive materials have leaked in or contaminated the aircraft, unless the radiation level resulting from the fixed contamination at any accessible surface and the non-fixed contamination are not more than the values specified in paragraph 3.2 of Part 7 of the Technical Instructions.

2.2.13 Infectious substances

Where any package containing infectious substances loaded on an aircraft appears to be damaged or leaking, the operator shall –

- a) avoid handling the package or keep handling to a minimum;
- b) inspect adjacent packages for contamination and put aside any that may be contaminated;
- c) inform the appropriate public health authority or veterinary authority and provide information on any other countries of transit where any persons may have been exposed to danger; and
- d) notify the consignor or the consignee.

2.2.14 Radioactive material

Where the aircraft has been contaminated by radioactive materials, the operator shall

- a) immediately take the aircraft out of service; and
- b) not return the aircraft into service until the radiation level at any accessible surface and the remaining contamination does not exceed the values specified in the Technical Instructions.

2.2.15 Information to employees

The operator shall provide such information to their employees and, where applicable, their handling agent, as will enable them to carry out their responsibilities with regard to the carriage of dangerous goods including –

- a) instructions on action to be taken in emergencies arising involving the dangerous goods; and
- b) such other information as specified in the Technical Instructions.

2.2.16 Information in cargo acceptance areas

- a) The operator shall display notices to the public at cargo acceptance areas providing information about the carriage of dangerous goods.
- b) The notices in paragraph (a) shall be –
 - 1) sufficient in number; and
 - 2) prominently displayed.

2.2.17 Information to passenger

- a) The operator shall inform a passenger of the type of goods that he or she is prohibited from carrying aboard an aircraft.
- b) The information required by paragraph (a) shall be provided –
 - (i) by notices sufficient in number and prominently displayed: -
 - i) at each location where tickets are issued, and baggage checked; and
 - ii) in each aircraft boarding area; and
 - (ii) with the passenger ticket, or if no physical ticket is issued, as part of the booking confirmation.

2.2.18 Dealing with suspected contaminated baggage or cargo

- a) If the operator becomes aware that baggage or cargo not identified as containing dangerous goods has been contaminated and it is suspected that dangerous goods may be the cause of the contamination, the operator shall—
 - 1) comply with regulation 135 of MCAR;

- 2) take reasonable steps to identify the nature and source of the contamination;
 - 3) if the contaminating substance is found or suspected to be a substance classified as dangerous goods by these Instructions, isolate the baggage or cargo and take appropriate steps to nullify any identified hazard before the baggage or cargo is transported further by air; and
 - 4) take possession of such dangerous goods.
- b) Where the operator is in possession of dangerous goods, the operator –
- 1) shall take all reasonable precautions to secure the goods until those goods are inspected, tested, analysed or evidenced by the Authority; and
 - 2)
 - 3) may release the goods taken into custody when those goods are no longer needed by the Authority for inspection, testing, analysis, or evidential purposes.

2.3 Shipper's responsibilities

2.3.1 Before consigning any dangerous goods for carriage by air, the shipper or his agent shall—

- a) ensure that the dangerous goods are not forbidden for carriage by air in any circumstances under the provisions of the Technical Instructions;
- b) ensure that dangerous goods are properly classified, packed, marked, labelled and accompanied by a properly executed dangerous goods transport document, as specified in Annex 18 to the Chicago Convention and the Technical Instructions;
- c) provide to the operator on which the dangerous goods are to be carried, or to any agent of the operator, the duly executed dangerous goods transport document, which shall contain the information required by the Technical Instructions;
- d) sign a declaration that the dangerous goods—
 - 1) are fully and accurately described by their proper shipping names; and
 - 2) are classified, packed, marked, labelled, and in proper condition for carriage by air in accordance with the Technical Instructions;

unless the Technical Instructions provides otherwise that the dangerous goods are not required to have such declaration;

- e) provide to their employees such information as will enable them to carry out their responsibilities with regard to the carriage of dangerous goods and instructions as to the action to be taken in the event of emergencies arising involving dangerous goods; and
- f) ensure that the English language is used for all dangerous goods transport documents.

2.3.2 Packaging requirements

A person shall not mark, label, certify, or offer a packaging as meeting the requirements of this Chapter unless the packaging is—

- a) manufactured, fabricated, marked, maintained, reconditioned, and repaired, as applicable, in accordance with the Technical Instructions; and
- b) tested in accordance with the Technical Instructions.

2.3.3 Packing requirements

A person who packs dangerous goods for carriage by air shall—

- a) pack the goods in accordance with the Technical Instructions;
- b) undergo for dangerous goods training programme as approved by the Authority; and
- c) except where the Technical Instructions otherwise provides, ensure that the packaging –
 - 1) is used as specified in the applicable test; and
 - 2) confirms in all respects with the design type, including the method of packing and size and type of any inner packaging, which was tested.

2.3.4 Marking requirements

A person who marks a package or overpack containing dangerous goods for carriage by air shall mark the package or overpack –

- a) in accordance with the Technical Instructions; and
- b) with the following:
 - 1) the proper shipping name of the dangerous goods, and, if appropriate, supplemented with the technical name;
 - 2) when assigned, the corresponding UN number, preceded by the letters UN number;
 - 3) the name and address of the person who offers the dangerous goods for carriage by air and the consignee; and
 - 4) such other markings as are specified in the Technical Instructions.

2.3.5 Labelling requirements

- a) A person who labels a package or overpack containing dangerous goods for carriage by air shall—
 - 1) label each package and overpack in accordance with the Technical Instructions; and
 - 2) ensure that each hazard label indicates the true nature of the hazard in accordance with the Technical Instructions.

- b) A person who offers a package or overpack containing dangerous goods for carriage by air shall ensure that—
 - 1) the dangerous goods are not forbidden under the Technical Instructions for carriage by air;
 - 2) the dangerous goods are certified in accordance with the acceptance checklist as specified in **Appendix A** ;
 - 3) the dangerous goods are packaged, packed, marked, and labelled in the manner prescribed under paragraphs 2.3.2, 2.3.3, 2.3.4 and this paragraph.
 - 4) when required by the Technical Instructions, the dangerous goods are accompanied by a dangerous goods transport document that has been executed and signed in accordance with the acceptance checklist as specified in **Appendix A**.

2.3.6 Dangerous goods transport document

- a) A person who offers dangerous goods for carriage by air shall, provide the operator with two (2) copies of a completed and signed dangerous goods transport document that—
 - 1) accurately describes the dangerous goods in the following order by their—
 - i) proper shipping name;
 - ii) class or, when assigned, division, including for Class 1, compatibility group;
 - iii) UN number, if any, preceded by the letters UN;
 - iv) where assigned, the appropriate packing group; and
 - 2) bears the following declaration signed by the person who offered the dangerous goods for carriage by air:
“I hereby declare that the contents of this consignment are fully and accurately described above by the proper shipping name, and are classified, packaged, marked, and labelled/placarded, and are in all respects in proper condition for transport according to applicable international and national governmental regulations”;
 - 3) have name, dated and signed by the shipper’;
 - 4) full name of airport departure and airport destination; and
 - 5) complies with the Technical Instructions.

3 Application for Approval

- 3.1** The Authority may issue a permit for carriage of munition of war, dangerous goods or forbidden dangerous goods if the Authority is satisfied that the applicant has fulfilled the requirements under this NTDGP and the following requirements—
- a) submission of an application form as attached in Appendix B, Appendix C, Appendix D, Appendix E as the case may be and
 - b) Each operator shall develop and approve Dangerous Goods Manual as template in Appendix F
 - c) accompanied by the prescribed fee under the Civil Aviation (Fees and Charges) Regulations 2016.
- 3.2** The Authority may issue an approval of dangerous goods training programme if the Authority is satisfied that the applicant has fulfilled the requirements under this NTDGP and the following requirements—
- a) submission of an application form as attached in **Appendix G**; and
 - b) accompanied by the prescribed fee under the Civil Aviation (Fees and Charges) Regulations 2016.
- 3.3** The Authority may issue an approval of dangerous goods card if the Authority is satisfied that the applicant has fulfilled the requirements under this NTDGP and the following requirements—
- a) submission of an application form as attached in **Appendix H**; and
 - b) accompanied by the prescribed fee under the Civil Aviation (Fees and Charges) Regulations 2016.
- 3.4** The Authority may issue a Foreign Aircraft Operator Certificate to Foreign Aircraft Operator if the Authority is satisfied that the applicant has fulfilled the following requirement—
- a) submission of a Foreign Aircraft Operator Certificate Compliance Matrix (Section D-Dangerous Goods) as attached in **Appendix I**;

INTENTIONALLY LEFT BLANK

4 Provision Concerning Passenger and Crew

- 4.1** No passenger or crew shall carry dangerous goods either as in carry-on baggage, checked baggage or on their person except as provided for in the Technical Instructions.
- 4.2** The provisions of this NTDGP and the Technical Instructions shall not apply to baggage that has been separated from its owner during transit (e.g. lost baggage or improperly routed baggage) or in excess baggage carried as cargo as permitted.
- 4.3** Any person other than an operator (such as a travel agent), involved in the air transport of passengers, shall provide passengers with information about the types of dangerous goods which they are forbidden to transport aboard an aircraft. This information shall consist of, as a minimum, notices at those locations where there is an interface with the passengers.
- 4.4** Where provision is made for the purchase of tickets via the internet, the operator shall ensure that the information on the types of dangerous goods which a passenger is forbidden to transport aboard an aircraft be provided in either text or pictorial form and be such that ticket purchase cannot be completed until the passenger, or a person acting on their behalf, has indicated that they have understood the restrictions on dangerous goods in baggage.

INTENTIONALLY LEFT BLANK

5 Dangerous Goods Training

5.1 Application

This Chapter shall apply to—

- a) shippers of dangerous goods, including packers and persons or organisations undertaking the responsibilities of the shipper;
- b) operators;
- c) ground handling agencies which perform, on behalf of the operator, the act of accepting, handling, loading, unloading, transferring or other processing of cargo or mail;
- d) ground handling agencies located at an airport which perform, on behalf of the operator, the act of processing passengers;
- e) agencies, not located at an airport, which perform, on behalf of the operator, the act of checking in passengers;
- f) freight forwarders;
- g) agencies engaged in the security screening of passengers and crew and their baggage and/or cargo or mail;
- h) designated postal operators; and
- i) agencies engaged in the security screening of passengers and their baggage.

5.2 General requirements

- 5.2.1 No person shall provide dangerous goods training programme except with the approval from the Authority.
- 5.2.2 For the purpose of paragraph 5.2.1, the approval includes the approval for the instructor to conduct the training programme.
- 5.2.3 No holder of a permit issued under regulation 132 of the MCAR as specified in Table 1 shall carry out any duty involving dangerous goods unless he has satisfactorily completed the training programme as specified in the Table 1 and holds a dangerous goods card issued by the Authority.
- 5.2.4 A person as specified in Table 2 of this Chapter which is not a holder of a permit issued under regulation 132 of the MCAR shall satisfactorily completed the training programme as specified in the Table 2 and holds a dangerous goods card issued by the Authority.
- 5.2.5 A person as specified in Table 3 of this Chapter shall satisfactorily completed the training programme as specified in the Table 3 and holds a dangerous goods card issued by the Authority.

- 5.2.6 A person as specified in Table 1, Table 2 and Table 3 shall undergo the respective recurrent training programme every two (2) years to ensure knowledge is current.
- 5.2.7 For the avoidance of doubt, if recurrent training is completed within the final three (3) months of validity of previous training, the period of validity extends from the month of which the recurrent training was completed until 24 months from the expiry month of that previous training.
- 5.2.8 A person shall ensure that its personnel who are assigned duties involving dangerous good—
- a) have satisfactorily completed an initial and recurrent dangerous goods training programme; and
 - b) holds a dangerous goods card issued by the Authority.

CATEGORY	DETAILS
1	Shippers and persons undertaking the responsibilities of shippers', including operator's staff acting as shippers, operator's staff preparing dangerous goods as Company Materials (COMAT)
2	Packers
3	Staff of freight forwarders involved in processing dangerous goods
4	Staff of freight forwarders involved in processing cargo or mail (other than dangerous goods)
5	Staff of freight forwarders involved in the handling, storage and loading cargo or mail
6	Operator's & Ground Handling Agent's staff accepting dangerous goods and DG coordinator as specified in paragraph 1.4 Chapter 2
7	Operator's and Ground Handling Agent's staff accepting cargo or mail (other than dangerous goods)
8	Operator's and Ground Handling Agent's staff involved in the handling, storage and loading of cargo or mail and baggage
9	Passenger handling staff
10	Flight crew members, loadmasters, load planners and flight operations officers / flight dispatchers
11	Crew members (other than flight crew members)
12	Security staff who deal with the screening of passengers and crew and their baggage and cargo or mail, e.g., security screeners, their supervisors and staff involved in implementing security procedures

CATEGORY	DETAILS
A	Staff of designated postal operators involved in accepting mail containing dangerous goods and DG coordinator as specified in paragraph 1.4 Chapter 2
B	Staff of designated postal operators involved in processing mail (other than dangerous goods)
C	Staff of designated postal operators involved in handling, storage and loading of mail

5.3 Instructor's qualifications

- 5.3.1 No person shall act as an instructor of dangerous good training programme unless with the approval by the Authority.
- 5.3.2 Authority may approve any person to act as an instructor for dangerous goods training programme if—
- a) holds a certificate of ICAO's instructor course or professional skills for dangerous goods instructor course from IATA;
 - b) has successfully completed the dangerous goods training programme for Category 6, prior to delivering such a dangerous goods training programme;
 - c) is a local citizen having experience in dangerous goods; and
 - d) has at least every twenty four (24) months delivered initial and recurrent dangerous goods training programme, or in the absence of this attend recurrent training.
- 5.3.3 The certificate under subparagraph 3.2 (a) shall not be more than five years from the date issuance of such certificate.
- 5.3.4 Subparagraph 5.3.2 (d) shall not apply to an applicant for an initial approval as an instructor.

5.4 Training record

- 5.4.1 A person to whom this Chapter applies shall retain a training record which is more than thirty-six (36) months, for every person assigned duties involving dangerous goods, for the duration of the person's employment.
- 5.4.2 The record under paragraph 5.4.1 shall include –
- a) the initial training programme and last recurrent training undertaken;
 - b) when it was undertaken;
 - c) the identity of the person and organisation that conducted the training; and
 - d) the result and competence achieved.
- 5.4.3 A person shall within a reasonable time after being requested to do so by the Authority, cause to be produced the training record to the Authority.

INTENTIONALLY LEFT BLANK

6 Dangerous Goods Security

6.1 Application

- 6.1.1 The provisions of this Chapter shall not apply to—
- a) UN Number 2908 and UN Number 2909 excepted packages;
 - b) UN Number 2910 and UN Number 2911 excepted packages with an activity level not exceeding the A2 value; and
 - c) UN Number 2912 LSA-I and UN Number 2913 SCO-I.

6.2 Security plans

- 6.2.1 Any person engaged in the transport of high consequence dangerous goods shall adopt, implement and comply a security plan.
- 6.2.2 Security plan under paragraph 6.2.1 shall comprise of—
- a) specific allocations of responsibilities for security to competent and qualified person with appropriate authority to carry out their responsibilities;
 - b) records of dangerous goods or types of dangerous goods transport;
 - c) review of current operations and assessment of vulnerabilities including inter-modal transfer, temporary transit storage, handling and distribution as appropriate;
 - d) clear statement of measure including training policies;
 - e) effective and up-to-date procedures for reporting and dealing with security threat, breaches or security or security incidents;
 - f) procedures for the evaluation and testing of security plan and procedures for periodic review and update of the plan;
 - g) measures to ensure that the security of transport information contained in the plan; and
 - h) measure to ensure the security of the distribution of transport documentation is limited as far as possible.
- 6.2.3 For the purpose of this paragraph, “high consequence dangerous goods” means dangerous goods which have the potential for misuse in a terrorist event and which may, as a result, produce serious consequences such as mass casualties, mass destructions or mass socio economic disruptions.

6.3 Dangerous Goods Security Training

- 6.3.1 Dangerous goods training programme as specified in Chapter 5 shall include elements of security awareness.

- 6.3.2 Security awareness shall consist of:
- a) the nature of security risks;
 - b) recognising security risks methods to address and reduce such risks;
 - c) actions to be taken in the event of a security breach; and
 - d) awareness of security plans (if appropriate) commensurate with the responsibilities of individuals and their part in implementing security plans.

7 Reporting and Investigation of Occurrence

7.1 General

7.1.1 For the purpose of regulation 135 of the MCAR, the operator shall submit a written report CAAM/AV/DGU/135 form as specified in Appendix J of the occurrence to the Authority within twenty-four (24) hours from the occurrence coming to his knowledge including all relevant documents, as required by the Authority, vide email, fax or by hand, as follows:

a) Chief Executive Officer; and

- 1) Address: Level 3, Block Podium B, Precinct 4 62618 Putrajaya
- 2) Email: CEO.DGincident@caam.gov.my
- 3) Fax: 03-88895691

b) Director of AVSEC CAAM

- 1) Address: Level 1, Block Podium B, Precinct 4 62618 Putrajaya
- 2) Email: PKS.DGincident@caam.gov.my
- 3) Fax: 03-88714052

INTENTIONALLY LEFT BLANK

8 Appendices

8.1 Appendix A – Dangerous Goods Checklist for a Non-Radioactive Shipment

Dangerous Goods Checklist for a Non-Radioactive Shipment				
The recommended checklist appearing on the following pages is intended to verify shipments at origin. Never accept or refuse a shipment before all items have been checked. Ensure that the following information correct for each entry.				
SHIPPERS DECLARATION FOR DANGEROUS GOODS (DGD)				
		YES	NO	N/A
1.	Two copies in English and in the IATA format including the air certification statement [8.1.1, 8.1.2, 8.1.6.12]			
2.	Full name and address of Shipper and Consignee [8.1.6.1, 8.1.6.2]			
3.	If the Air Waybill number is not shown, enter it. [8.1.6.3]			
4.	The number of pages shown [8.1.6.4]			
5.	The non-applicable Aircraft Type deleted or not shown [8.1.6.5]			
6.	If full name of Airport or City of Departure or Destination is not shown, enter it. [8.1.6.6 and 8.1.6.7] Information is optional			
7.	The word "Radioactive" deleted or not shown [8.1.6.8]			
IDENTIFICATION				
8.	UN or ID number(s), preceded by prefix [8.1.6.9.1, Step 1]			
9.	Proper Shipping Name and the technical name in brackets for asterisked entries [8.1.6.9.1, Step 2]			
10.	Class or Division and for Class 1, the Compatibility Group, [8.1.6.9.1, Step 3]			
11.	Subsidiary Risk, in parentheses, immediately following Class or Division [8.1.6.9.1, Step 4]			
12.	Packing Group [8.1.6.9.1, Step 5]			

Quantity and Type of Packing				
		YES	NO	N/A
13.	Number and Type of Packages [8.1.6.9.2, Step 6]			
14..	Quantity and unit of measure (net, or gross followed by "G", as applicable) within per package limit [8.1.6.9.2, Step 6]			
15.	When different dangerous goods are packed in one outer packaging, the following rules are complied with:			
a.	Compatible according to Table 9.3.A			
b.	UN packages containing Division 6.2 [5.0.2.11(c)]			
c.	"All packed in one (type of packaging)" [8.1.6.9.2, Step 6(f)]			
d.	Calculation of "Q" value must not exceed 1 [5.0.2.11 (g) & (h); 2.7.5.6; 8.1.6.9.2, Step 6(g)]			
16..	Overpack			
a.	Compatible according to Table 9.3.A. [5.0.1.5.1]			
b..	Wording "Overpack Used" [8.1.6.9.2, Step 7]			
c.	If more than one overpack is used, identification marks shown and total quantity or dangerous goods [8.1.6.9.2, step 7]			
Packing instructions				
17.	Packing Instruction Number [8.1.6.9.3, Step 8]			
18.	For lithium batteries in compliance with section 1B, "1B" follows the packing instruction [8.1.6.9.3, step8]			
Authorisation				
19.	Check all verifiable special provisions. The Special Provision Number if A1, A2, A4, A5, A51, A81, A88,A99, A130, A190, A191 [8.1.6.9.4, Step 9]			
20.	Indication that government authorisation is attached, including a copy in English and additional approvals for other items under [8.1.6.9.4, Step 9]			
Additional Handling Information				
21.	The mandatory statement shown for self-reactive and related substances of Division 4.1 and organic peroxides of Division 5.2, or sample thereof,PBE, viscous flammable liquids and fireworks [8.1.6.11.1, 8.1.6.11.2, 8.1.6.11.3 and 8.1.6.11.5]			
22.	Name and telephone number of responsible person for Division 6.2 infectious substance shipment [8.1.6.11.4]			

		YES	NO	N/A
23.	Name and title (or department) of signatory, place and date indicated and signature of Shipper [8.1.6.13, 8.1.6.14 and 8.1.6.15]			
24.	Amendment or alteration signed by Shipper [8.1.2.6]			
Air waybill – handling information				
25.	The statement: “Dangerous goods as per attached Shipper's Declaration” or “Dangerous Goods as per attached DGD” [8.2.1(a)]			
26.	“Cargo Aircraft Only” or “CAO”, if applicable [8.2.1(b)]			
27.	Where non-dangerous goods are included, the number of pieces of dangerous goods shown [8.2.2]			
Package(s) and overpacks				
28.	Packaging conforms with packing instruction and is free from damage or leakage [The relevant PI and 9.1.3]			
29.	Same number and type of packagings and overpacks delivered as shown on DGD [9.1.3]			
Markings				
30.	UN Specification Packaging, marked according to 6.0.4 and 6.0.5:			
-	Symbol and Specification Code			
-	X, Y or Z meets or exceeds Packing Group/Packing Instruction requirements			
-	Gross Weight within limits (Solids, Inner Packagings or IBCs [SP A179])			
-	Infectious substance package marking [6.5.3.1]			
31.	UN or ID number(s), preceded by prefix [7.1.4.1(a)]			
32.	The Proper Shipping Name(s) including technical name where required [7.1.4.1(a)]			
33.	The full name(s) and Address(es) of Shipper and Consignee [7.1.4.1(b)]			
34.	For consignments of more than one package of all classes (except ID 8000 and Class 7) the net quantity, or gross weight followed by G, as applicable, unless contents are identical, marked on the packages [7.1.4.1(c)]			
35.	Carbon Dioxide, Solid (Dry Ice), the net quantity marked on the packages [7.1.4.1(d)]			
36.	The name and telephone number of a responsible person for Division 6.2 infectious substances shipment [7.1.4.1(e)]			
37.	The Special Marking requirements shown for Packing Instruction 202 [7.1.4.1(f)]			

		YES	NO	N/A
38.	Limited Quantities mark [7.1.4.2]			
39.	The Environmentally Hazardous Substance Mark [7.1.5.3]			
Labelling				
40.	The label(s) identifying the Primary risk as per 4.2, Column D [7.2.3.2; 7.2.3.3(b)]			
41.	The label(s) identifying the Subsidiary risk, as per 4.2, Column D [7.2.3.2; 7.2.6.2.3]			
42.	Cargo Aircraft Only label [7.2.4.2; 7.2.6.3]			
43.	"Orientation" labels on two opposite sides, if applicable [7.2.4.4]			
44.	"Cryogenic Liquid" labels, if applicable [7.2.4.3]			
45.	"Keep Away From Heat" label, if applicable [7.2.4.5]			
46.	"Lithium battery" label, if applicable [7.2.4.7]			
47.	All required labels are displayed correctly [7.2.6] and all irrelevant marks and labels removed or obliterated [7.1.1; 7.2.1]			
For Overpacks				
48.	Packaging use markings and hazard and handling labels, as required must be clearly visible or reproduced on the outside the overpack [7.1.7.1, 7.2.7]			
49.	The word "Overpack" marked if markings and labels are not visible [7.1.7.1]			
50.	If more than one overpack is used, identification marks shown and total quantity of dangerous goods [7.1.7.2]			
General				
51.	State and operator variations compiled with [2.8]			
52.	Cargo aircraft only shipments, a cargo aircraft operates on all sectors			
53.	For 1Blithium batteries, one "lithium battery document" with the required information accompanying the consignment [8.1.6.11.7]

Dangerous Goods Checklist for a Non-Radioactive Shipment

The recommended checklist appearing on the following pages is intended to verify shipments at origin. Never accept or refuse a shipment before all items have been checked. Ensure that the following information correct for each entry.

SHIPPERS DECLARATION FOR DANGEROUS GOODS (DGD)

		YES	NO	N/A
1.	Two copies in English and in the IATA format including the air certification statement [10.8.1.2; 10.8.1.4, 8.1.1 and 10.8.3.12.2]			
2.	Full name and address of Shipper and Consignee [10.8.3.1, 10.8.3.2]			
3.	If the Air Waybill number is not shown, enter it. [10.8.3.3]			
4.	The number of pages shown. [10.8.3.4]			
5.	The non-applicable Aircraft Type deleted [10.8.3.5]			
6.	If full name of Airport or City of Departure or Destination is not shown, enter it. [10.8.3.6 and 10.8.3.7] Information is optional			
7.	The word "Non – Radioactive" deleted [10.8.3.8]			

IDENTIFICATION

8.	UN or ID number(s), preceded by prefix "UN" [10.8.3.9.1, Step 1]			
9.	Proper Shipping Name [10.8.3.9.1, Step 2]			
10.	Class 7 [10.8.3.9.1, Step 3]			
11.	Subsidiary Risk, in parentheses, immediately following Class [10.8.3.9.1, Step 4] and Packing Group if required for Subsidiary Risk [10.8.3.9.1, Step 5]			

Quantity and type of packing

12.	Name or symbol of radionuclide(s) [10.8.3.9.2, Step 6 (a)]			
13.	A description of the physical and chemical form if in other form [10.8.3.9.2, Step 6 (b)]			
14.	"Special Form" (not required for UN 3332 or UN 3333) or low dispersible material [10.8.3.9.2, Step 6 (b)]			
15.	The number and type of packages and the activity in becquerel or multiples thereof in each package. For Fissile Material the total weight in grams or kilograms of fissile material may be shown in place of activity [10.8.3.9.2, Step 7]			
16.	For different individual radionuclides, the activity of each radionuclide and the words "All packed in one" [10.8.3.9.2, Step 7]			

		YES	NO	N/A
17.	Activity within limits for type A packages [table 10.3.A], Type B, or type C [see attached competent authority certificate]			
18.	Words "Overpack Used" shown on the DGD [10.8.3.9.2, Step 8]			
Packing instructions				
19.	Category of package(s) or overpack [10.8.3.9.3, Step 9 and Table 10.5.C]			
20.	Transport Index and dimensions (preferably in sequence Length x Width x Height) for Category II and Category III only [10.8.3.9.3, Step 9]			
21.	For Fissile Material the Criticality Safety Index or the words "Fissile Excepted" [10.8.3.9.3, Step 9]			
Authorisation				
22.	Identification marks shown and a copy of the document in English attached to DGD for the following [10.8.3.9.4, Step 10; 10.5.7.2.3]:			
-	Special form approval certificate			
-	Low dispersible material approval certificate			
-	Type B package design approval certificate			
-	Other approval certificates as required			
23.	Additional handling information [10.8.3.15]			
24.	Name and title (or department) of signatory, place and date indicated [10.8.3.13 and 10.8.3.14] and signature of shipper [10.8.3.15]			
25.	Amendment or alteration signed by shipper [10.8.1.7]			
Air waybill – handling information				
26.	The statement: "Dangerous goods as per attached Shipper's Declaration" or "Dangerous Goods as per attached DGD" [10.8.8.1(a)]			
27.	Cargo Aircraft Only or CAO, if applicable [10.8.8.1(b)]			
28.	Where non-dangerous goods are included, the number of pieces of dangerous goods shown [10.8.8.2]			

Package(s) and overpacks				
		YES	NO	N/A
29.	Same number and type of packagings and overpacks delivered as shown on DGD			
30.	Unbroken transportation seal [10.6.2.4.1.2] and package in proper condition for carriage [9.1.3; 9.1.4]			
Markings				
31.	Two correctly completed Radioactive Hazard labels on opposite sides [10.7.3.3; 10.7.4.3.1]			
32.	The Proper Shipping Name [10.7.1.3.1]			
33.	The full Name and Address of the Shipper and Consignee [10.7.1.3.1]			
34.	The permissible gross weight if the gross weight of the package exceeds 50 kg [10.7.1.3.1]			
35.	Type A packages, marked as per 10.7.1.3.4			
36.	Type B packages, marked as per 10.7.1.3.5			
37.	Type C packages, Industrial Packages and packages containing Fissile material marked as per 10.7.1.3.6, 10.7.1.3.3 or 10.7.1.3.7			
Labelling				
38.	Two correctly completed Radioactive Hazard labels on opposite sides [10.7.3.3; 10.7.4.3.1]			
39.	Applicable label(s) identifying the Subsidiary [10.7.3.2; 10.7.4.3]			
40.	Two Cargo Aircraft Only labels, if required, on the same surface near the Hazard labels [10.7.4.2.4; 10.7.4.3.1; 10.7.4.4.1]			
41.	For fissile materials, two correctly completed Criticality Safety Index (CSI) labels on the same surface as the hazard labels [10.7.3.3.4; 10.7.4.3.1]			
42.	All displayed labels correctly located, affixed and irrelevant marks and labels removed or obliterated [10.7.1.1; 10.7.2.1; 10.7.4]			
For overpacks				
43.	Packaging markings as required must be clearly visible or reproduced on the outside of the overpack [10.7.1.4.1]			
44.	If more than one overpack is used, identification marks shown [10.7.1.4.2]			
45.	Hazard labels reflect total for overpack [10.7.3.4]			

General				
46.	State and operator variations compiled with [2.8]			
47.	Cargo Aircraft Only shipments, a cargo aircraft operates on all sectors			
48.	Packages containing Carbon dioxide solid (dry ice), the marking, labelling and documentary requirements complied with [Packing Instruction 954; 7.1.4.1 (d); 7.2.3.9]

Acceptance Checklist for Dry Ice (Carbon Dioxide, Solid)

(For use when shipper's declaration for Dangerous Goods is not required)

A checklist is required for all shipments of dangerous goods (9.1.4) to enable proper acceptance checks to be made. The following example checklist is provided to assist shippers and carriers with the acceptance of dry ice when packaged on its own or with non-dangerous goods. Ensure the following information correct for each entry.

Documentation

The Air Waybill contains the following information in the "Nature and Quantity of Goods" box (8.2.3)

		YES	NO	N/A
1.	The UN Number "1845", preceded by the prefix "UN"			
2.	The words "Carbon dioxide, solid" or "Dry ice"			
3.	The number of packages of dry ice (may be in the pieces field of the AWB when they are the only packages in consignment)			
4.	The net quantity of dry ice in kilograms			

Note: The packing instruction "954" is optional

Quantity

5.	The Quantity of dry ice per package is 200kg or less [4.2]			
----	--	--	--	--

Packages and overpacks

6.	The number of packages containing dry ice delivered as shown on the Air Waybill			
7.	Packages are free from damage and in a proper condition for carriage			
8.	The packaging conforms with packing instructions 954 and the packages is vented to permit the release of gas			

Marking & labels

9.	The UN number "1845" preceded by prefix "UN" [7.1.4.1(a)]			
10.	The words "Carbon dioxide, solid" or "Dry ice" [7.1.4.1(a)]			
11.	Full name and address of the shipper and consignee [7.1.4.1(b)]			
12.	The net quantity of dry ice within each package [7.1.4.1(d)]			

13.	Class 9 label affixed [7.2.3.9]			
14.	Irrelevant marks and labels removed or obliterated [7.1.1(b); 7.2.1(a)]			

Note: The Marking and labelling requirements do not apply to ULDs containing dry ice.

For overpacks

15.	Packaging use markings and hazard and handling labels, as required must be clearly visible			
16.	Packaging Use markings and hazard and handling labels, as required must be clearly visible or reproduced on the outside of the overpack [7.1.7.1, 7.2.7]			
17.	The word "Overpack" marked if markings and labels are not visible [7.1.7.1]			

Note: the markings and labelling requirements do not apply to ULDs containing dry ice

State and operator variations

18.	State and operator variations complied with [2.8]

3.6.3	Describes the procedures for and the form of promulgating information to passengers.		
3.6.4	Describe the acceptance procedures are for passengers and baggage.		
3.6.5	Describe how information on the types of dangerous goods which a passenger is forbidden to transport aboard an aircraft is provided at the point of ticket purchase		
3.6.6	Describe how information provided via the Internet may be in text or pictorial form but must be such that ticket purchase cannot be completed until the passenger, or a person acting on their behalf, has indicated that they have understood the restrictions on dangerous goods in baggage		
3.6.7	Describe how the operator will ensure that notices warning passengers of the types of dangerous goods which they are forbidden to transport aboard an aircraft are prominently displayed, in sufficient number, at each of the places at an airport where tickets are issued, passengers are checked in and aircraft boarding areas are		

	maintained, and at any other location where passengers are checked in. These notices must include visual examples of dangerous goods forbidden from transport aboard an aircraft		
3.6.8	Describe how an operator, of passenger aircraft, should have information on those dangerous goods which may be carried by passengers is made available prior to the check-in process on their websites or other sources of information.		
3.6.9	Describe if provision is made for the check-in process to be completed remotely (e.g via the internet), the operator must ensure that Information on the types of dangerous goods, which a passenger is forbidden to transport aboard an aircraft, is presented to passengers. Information may be In text or pictorial form but must be such that the check-in process cannot be completed until the passenger, or a person acting on their behalf, has been presented with this information and indicated that they have understood the restrictions on dangerous goods in baggage.		
3.6.10	Describe if provision is made for the check-in process to be completed remotely at an airport by a passenger without the involvement of any other person (e.g. automated check-in facility), the operator or the airport operator must ensure that information on the types of dangerous goods which a passenger is forbidden to transport aboard an aircraft is presented to passengers. Information should be in pictorial form and must be such that the check-in process cannot be completed until the passenger has been presented with this information and indicated that they have understood the restrictions on dangerous goods in baggage.		

3.7 Stores (Company Material (COMAT)) Shipment

3.7.1	If the air operator does not perform the responsibilities of a shipper of COMAT, then the air operator will include a statement to this effect		
3.7.2	State who is responsible / qualified to prepare dangerous goods COMAT for transport.		
3.7.3	Describes how dangerous goods COMAT are prepared for transport		
3.7.4	Describes how dangerous goods COMAT are prepared for transport		

3.10 Ground Handling

3.10.1	Describes procedures for storing cargo in the course of air transportation, other than on the aircraft		
3.10.2	Describes procedures for movement within the cargo facility, and to and from the cargo facility to the aircraft		

3.10.3	Describes procedures for replacing lost, detached or illegible safety marks on packages, overpacks, freight or unit load devices		
3.10.4	Describes the procedures for loading / unloading dangerous goods onto or from and aircraft		
3.11 Load Planning			
3.11.1	Describes the procedures for load planning (including preparation of NOTOC where applicable).		
3.12 Emergency Procedures			
3.12.1	States emergency response information is available and where the pilot-in-command/other crew members can find it		
3.12.2	States how the pilot-in-command is to report emergencies involving dangerous goods.		
3.12.3	Describes how the NOTOC is accessed during an emergency		
3.12.4	Describes the procedures for managing a dangerous goods incident/accident on the ground.		
3.12.5	Describes the procedures for managing mis declared or undeclared dangerous goods.		
3.12.6	Describes the procedures to follow when reporting undeclared or mis declared dangerous goods as cargo or mail.		
3.12.7	Describes the procedures to follow when reporting dangerous goods in passenger / crew baggage		
3.12.8	Describes procedures to follow when reporting dangerous goods incidents / accidents.		
3.12.9	Describes the procedures to follow when reporting dangerous goods discovered to have been carried when not loaded, segregated, separated or secured in Accordance ICAO		
3.12.10	Describes the procedures to follow when reporting dangerous goods dangerous goods are discovered to have been carried without information having been provided to the pilot-in command		
3.2.11	In the event of an aircraft accident or serious incident, the operator must have a procedure to provide information without delay to emergency service responders about dangerous goods on board.

Name (If submitted on behalf, please attached the letter with certificate)	
Address	
Telephone	
Signature	E-mail

3. TYPE OF TRAINING PROGRAMME DETAILS

Title of Training Programme :	
Type of submission <input type="checkbox"/> New <input type="checkbox"/> Initial Submission <input type="checkbox"/> Amendment	Prior Approval Number (if applicable)
Type of program – Type de programme <input type="checkbox"/> Initial <input type="checkbox"/> Recurrent <input type="checkbox"/> Initial and Recurrent <input type="checkbox"/> Other (specify)	How the training is to be delivered <input type="checkbox"/> Classroom Delivery <input type="checkbox"/> Other (specify)

Category of personnel who will use the training program

- ☐ 01 - Shippers and persons undertaking the responsibilities of shippers
- ☐ 02 - Packers
- ☐ 03 - Staff of freight forwarders involved in processing dangerous goods
- ☐ 04 - Staff of freight forwarders involved in processing cargo or mail (other than dangerous goods)
- ☐ 05 - Staff of freight forwarders involved in the handling, storage and loading of cargo or mail
- ☐ 06 - Operator's and ground handling agent's staff accepting dangerous goods
- ☐ 07 - Operator's and ground handling agent's staff accepting cargo or mail (other than dangerous goods)
- ☐ 08 - Operator's and ground handling agent's staff involved in the handling, storage and loading of cargo or mail and baggage
- ☐ 09 - Passenger-handling staff
- ☐ 10 - Flight crew members, loadmasters, load planners and flight operations officers/flight dispatchers
- ☐ 11 - Crew members (other than flight crew members)
- ☐ 12 - Security staff who are involved with the screening of passengers and crew and their baggage and cargo or mail, e.g. security screeners, their supervisors and staff involved in implementing security procedures

Operators not carrying dangerous goods as cargo or mail

- ☐ 13 - Operator's and ground handling agent's staff accepting cargo or mail (other than dangerous goods)
- ☐ 14 - Operator's and ground handling agent's staff involved in the handling, storage and loading of cargo or mail (other than dangerous goods) and baggage
- ☐ 15 - Passenger handling staff
- ☐ 16 - Flight crew members, loadmasters, load planners and flight operations officers/flight dispatchers
- ☐ 17 - Crew members (other than flight crew members)

Postal Operators

- ☐ A - Staff of designated postal operators involved in accepting mail containing dangerous goods
- ☐ B - Staff of designated postal operators involved in processing mail (other than dangerous goods)
- ☐ C - Staff of designated postal operators involved in handling, storage and loading of mail

Please ensure that;

- Every page is identified with a page number, a date and a revision number.
- There is a list of effective pages
- All the applicable training references are inscribed on the "Training Program Reference" column of the form. If the topic is not applicable "N/A" should be inscribed.
- All student handouts exams, answer sheet, correctors and marking details are included.
- The passing grade is mentioned.
- A copy of all audio-visual (transparencies, PowerPoint & movies) is included (if applicable)

4. GENERAL REQUIREMENT

The company should submit the complete training program which should include:	References
4.1 Endorsement and approval	
4.2 Table of Contents	
4.3 Record of revision	
4.4 List of effective pages	
4.5 The Training Objectif	
4.6 Dangerous Goods Training Management	
4.7 Course schedule	
4.8 Lesson Plan (Please follow template in Appendix A)	
4.9 The Trainer Profile	
4.10 List of Qualifications (<i>Please provide certificate for admin use</i>) <ul style="list-style-type: none"> (i) Professional Skills For DGR Instructor / Instructor in Aviation Field (ii) Completed a dangerous goods training programme in the applicable Category 6 (iii) Dangerous Goods Regulations Refresher 	

5. AREA OF TRAINING(Complete below checklist with the reference in column of checklist where each topic appears in the 'Training Programme'. If the topic is not applicable "N/A" should be inscribed)

Aspects of transport of dangerous goods by air with which they should be familiar, as a minimum	REFEREN CES

8.9 Appendix I – Foreign Air Operator Certificate (FAOC) Compliance Matrix

**Flight Operations
Division,**

**No. 27 Persiaran
Perdana,**

Level 2, Block Podium B, Precinct 4,

62618, PUTRAJAYA Tel.: 603 8871 4103, Fax.: 603 8871 4334

Email address: @caam.gov.my

FOREIGN AIR OPERATOR CERTIFICATE (FAOC) COMPLIANCE MATRIX

Operator Name:	Click or tap here to enter text.		
Contact Person	Click or tap here to enter text.	Contact Email Address:	Click or tap here to enter text.

This compliance matrix consists of four appendices that list the evidence that CAAM expects an air operator intending to conduct international commercial air transport operations to have included in its manuals or other documents that are required to be submitted to CAAM together with the Malaysian Foreign Air Operator application form.

Appendix A, B, C and D lists the procedures that CAAM expects an air operator intending to conduct international commercial air transport operations to have included in the operator's manuals or other documents. The list of procedures has been extracted from ICAO Annex 6 and other associated ICAO documents.

USER INSTRUCTIONS AND GUIDELINES

1. Identify the relevant section of your operations manuals, maintenance manuals or other documentation that addresses each procedure listed in each appendix.
2. Click in the column titled 'Operator Document Reference' and enter the document reference for the procedure. The document reference should identify the manual, volume, section and paragraph(s) that contain the procedure.
3. If a procedure is deemed to be not applicable to your operation, indicate this in the column titled 'Operator Document Reference' and provide a short explanation why the procedure is not applicable.
4. Items that are not covered by a procedure in the operator's documents, but are available to the CAAM inspector assessing your application, should be identified. These matters will be taken up with the operator and resolved before the assessment is finalised.
5. Appendix D (Dangerous Goods) consists of two parts:
 - Part 1 must be completed in full by all operators
 - Part 2 must be completed in full if you intend to carry dangerous goods (including company materials).
6. You are not required to complete the grey columns titled 'CAAM USE ONLY'. CAAM will use these columns to record the assessment outcome for each procedure listed. If CAAM is unable to locate the evidence required (using the 'Operator Document Reference' you supply), CAAM will mark the item as *Unsatisfactory* (in red font) in the 'Document Evaluation' column and include comments regarding the issues identified. A list of those unsatisfactory items will be returned to you and you will be required to address these matters before your assessment is finalised.

SECTION D – DANGEROUS GOODS

PART 1 - ALL OPERATORS

No.	ICAO Reference	Evidence Required	Company Document Reference	CAAM USE ONLY	
				Document Evaluation <i>Satisfactory?</i> <i>Unsatisfactory?</i>	CAAM's Comments <i>(incl. initials and date)</i>

NOTES

- Any type of dangerous goods occurrence must be reported, irrespective of whether the dangerous goods are contained in cargo, mail or baggage.
- A dangerous goods accident is an occurrence associated with and related to the transport of dangerous goods which results in fatal or serious injury to a person or major property damage. For this purpose serious injury is an injury which is sustained by a person in an accident and which: (a) requires hospitalisation for more than 48 hours, commencing within 7 days from the date the injury was received; or (b) results in a fracture of any bones (except simple fractures of fingers, toes or nose); or (c) involves lacerations which cause severe haemorrhage, nerve, muscle or tendon damage; or (d) involves injury to any internal organ; or (e) involves second or third degree burns, or any burns affecting more than 5% of the body surface; or (f) involves verified exposure to infectious substances or injurious radiation. A dangerous goods accident may also be an aircraft accident; in which case the normal procedure for reporting of air accidents must be followed.
- A dangerous goods incident is an occurrence, other than a dangerous goods accident, associated with and related to the transport of dangerous goods, not necessarily occurring on board an aircraft, which results in injury to a person, property damage, fire, breakage, spillage, leakage of fluid or radiation or other evidence that the integrity of the packaging has not been maintained. Any occurrence relating to the transport of dangerous goods which seriously jeopardises the aircraft or its occupants is also deemed to constitute a dangerous goods incident.
- This form should also be used to report any occasion when undeclared or misdeclared dangerous goods are discovered in cargo, mail or unaccompanied baggage or when accompanied baggage contains dangerous goods which passengers or crew are not permitted to take on aircraft.
- An initial report, which may be made by any means, must be despatched within 72 hours of the occurrence, to the Authority of the State (a) of the operator; and (b) in which the incident occurred, unless exceptional circumstances prevent this. This occurrence report form, duly completed, must be sent as soon as possible, even if all the information is not available.
- Copies of all relevant documents and any photographs should be attached to this report.
- Providing it is safe to do so, all dangerous goods, packaging, documents, etc, relating to the occurrence must be retained until after the initial report has been sent to the Dangerous Goods State Authority and they have indicated whether or not these should continue to be retained.
