

ADVISORY INFORMATION 08/2022 REV 2

21 June 2022

MYSEJAHTERA REQUIREMENTS FOR TRAVELLERS ENTERING MALAYSIA

1 Introduction

- 1.1 Malaysia is currently in transition to the endemic phase and has reopen the country's borders to travellers from abroad starting April 1, 2022.
- 1.2 In addition, the Government has also relaxed the procedure for travellers entering Malaysia beginning May 1, 2022. This Advisory Information (AI) is directed to all operators and travellers of the country's revised entry requirements.

2 Procedure

2.1 Before departure

2.1.1 While still abroad, travellers are required to:

- a) download and register the *MySejahtera* application via <https://mysejahtera.malaysia.gov.my/> within a week before departing for Malaysia;
- b) complete a pre-departure form in the 'Travel for...(travellers name)' icon that can be accessed via the "Traveller" icon on the *MySejahtera* screen;
- c) upload the Covid-19 test (RT-PCR or professionally administered RTK-AG) results. This test is to be conducted within two (2) days before departure to Malaysia. This requirement is exempted for:
 - 1) travellers who are fully vaccinated;
 - 2) travellers aged 17 years and below regardless of vaccination status; and
 - 3) travellers who were previously infected with COVID-19 within a period of six (6) to sixty (60) days from the date when the positive sample was tested; and
- d) for travellers who received their COVID-19 vaccination abroad, upload the COVID-19 vaccination certificate in *MySafeTravel* portal for verification purpose.

2.1.2 Once the pre-departure form is completed, the traveller will receive a 'Travellers Card' display in the *MySejahtera* application showing one of the following:

- a) fully vaccinated travellers will receive a **blue coloured ‘Travellers Card’**; or
- b) travellers with incomplete vaccination/not vaccinated will receive a **red coloured ‘Travellers Card’**.

2.1.3 Airline operators are required to ensure travellers have completed the form and receive the ‘Travellers Card’ in *MySejahtera* application before they board the flight to Malaysia.

2.1.4 The definition of fully vaccinated can be found in the following website link <https://www.mkn.gov.my/web/ms/fasa-peralihan-ke-endemik/>.

Note. – Refer to Attachment 1 for infographic on procedure for travellers to enter Malaysia (before departure)

2.2 **Upon arrival at any Malaysia International Point of Entry (POE)**

2.2.1 Travellers will be subjected to the following:

- a) travellers are subjected to thermal scanner screening or to refer himself/herself to a health officer at the health counter if he/she displays any symptoms.
- b) travellers who are asymptomatic will proceed to the Immigration counter. Once completed:
 - 1) travellers with a blue coloured ‘Travellers Card’ in *MySejahtera* will be allowed to enter without on-arrival testing and quarantine;
 - 2) travellers with a red coloured ‘Travellers Card’ in *MySejahtera* will be given a Home Surveillance Order (HSO) for **five (5) days** from the date of arrival in Malaysia. The traveller must perform a professional/supervised RTK-Ag test within **24 hours after arrival**;
- c) travellers who are symptomatic at the International POE regardless of vaccination status must undergo a professional/supervised RTK-Ag test within 24 hours after arrival.

Note. – Refer to Attachment 2 for infographic on procedure for travellers to enter Malaysia (upon arrival)

2.3 **After entering Malaysia**

2.3.1 Within 24 hours after arrival, **travellers aged 18 years and above who are partially/not vaccinated** are required to undergo a professional/supervised RTK-Ag test.

- a) if the result of the RTK-Ag test performed is positive, travellers will be given a ‘Home Surveillance Order (HSO)’ for seven (7) days and are required to undergo a professional/supervised RTK-Ag test on the 4th, 5th and 6th day of isolation. The traveller will be released from HSO if any of the RTK-Ag test is

negative. If the test on the 6th day is still positive, the traveller will be released from HSO once he/she completes the 7 days of isolation.

- b) if the result of the RTK-Ag test performed is negative, travellers will be given a 'Home Surveillance Order (HSO)' for five (5) days. The travellers are then required to undergo a RT-PCR test on the 4th day or a professional/supervised RTK-Ag on the 5th day of isolation. If either of the tests is negative, the traveller will be released from HSO. If either test is positive, the HSO will be extended by 3 days from the date of the second test performed.

2.3.2 The traveller shall bear all costs related to testing, quarantine, isolation and treatment imposed on it.

2.4 **Abolishment of previous conditions**

2.4.1 The following conditions for travellers entering Malaysia have been abolished beginning May 1, 2022:

- a) pre-departure COVID-19 detection test, on arrival COVID-19 detection test and quarantine for the following travellers:
 - 1) fully vaccinated travellers aged 18 years and above;
 - 2) travellers aged 17 years and below, regardless of their vaccination status; and
 - 3) travellers who were previously infected with COVID-19 within a period of six (6) to sixty (60) days from the date when the positive sample was tested.
- b) COVID-19 travel insurance for non-Malaysian citizen travellers entering Malaysia

3 **Conclusion**

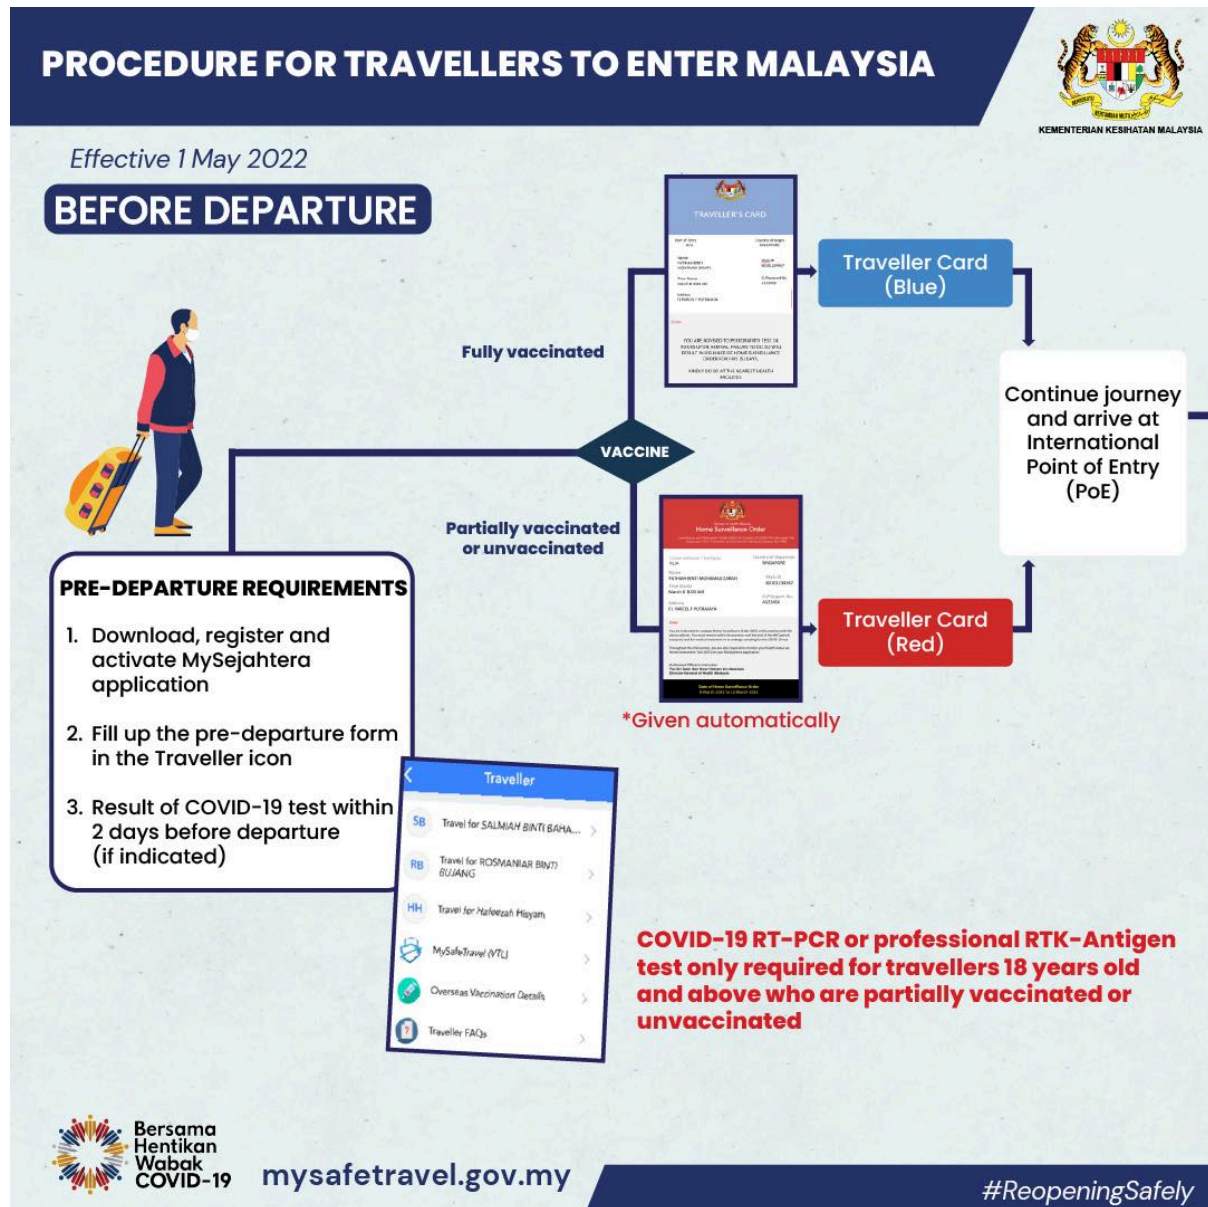

3.1 This AI supersedes Advisory Information (AI) 8/2022 REV 1 – *Mysejahtera* requirements for travellers entering Malaysia.

3.2 CAAM will continuously monitor and update accordingly should there be any development.
