(Dato' Captain Norazman bin Mahmud)
Chief Executive Officer
Civil Aviation Authority of Malaysia
7 June 2024

ATTACHMENT 1 TO CAC 03/2024: CAD 6 PART 1 – COMMERCIAL AIR TRANSPORT

1 Revision(s)

1.1 Paragraph 6.5.7

1.1.1 Paragraph 6.5.7 is inserted after paragraph 6.5.6 as follows:

6.5.7 Flotation Devices for seaplane operated on or above water:

- a) The air operator of a seaplane shall have, in its company operations manual, procedures to ensure that each crew member and passenger wears a life jacket or equivalent individual flotation device when the seaplane is operated on or above water.
- b) The pilot-in-command of a seaplane shall give an instruction to each crew member and passenger to wear a life jacket or equivalent individual flotation device when the seaplane is operated on or above water.
- c) For the purposes of this section, a person is wearing a life jacket or equivalent individual flotation device if it:
 - 1) has been placed over the person's head and is secured at his or her waist; or
 - 2) is attached to the person in accordance with the manufacturer's instructions.
- d) This procedure does not apply in respect of a person who is carried on a stretcher or in an incubator or other similar device.

1.1.2 **Reason for change:** The revision is made to include requirements for life jackets or individual flotation devices seaplane operation.

1.2 Paragraph 9.3.1.2

1.2.1 Paragraph 9.3.1.2 has been amended by inserting following after h) as follows:

- i) Flight crew are required to undergo initial training followed by training every three years on underwater egress for seaplanes.

1.2.2 **Reason for change:** The revision is to include underwater egress training for seaplane flight crew.

ATTACHMENT 2 TO CAC 03/2024: CAD 6 PART 2 – GENERAL AVIATION

1 Revision(s)

1.1 Paragraph 2.4.4.1.2 and 2.4.4.1.3

1.1.1 Paragraph 2.4.4.1.2 and 2.4.4.1.3 is inserted after paragraph 2.4.4.1.1 as follows:

2.4.4.1.2 Flotation Devices for seaplane operated on or above water:

- a) The air operator of a seaplane shall have, in its company operations manual, procedures to ensure that each crew member and passenger wears a life jacket or equivalent individual flotation device when the seaplane is operated on or above water.
- b) The pilot-in-command of a seaplane shall give an instruction to each crew member and passenger to wear a life jacket or equivalent individual flotation device when the seaplane is operated on or above water.
- c) For the purposes of this section, a person is wearing a life jacket or equivalent individual flotation device if it:
 - 1) has been placed over the person's head and is secured at his or her waist; or
 - 2) is attached to the person in accordance with the manufacturer's instructions.
- d) This procedure does not apply in respect of a person who is carried on a stretcher or in an incubator or other similar device.

2.4.4.1.3 Flight crew are required to undergo initial training followed by training every three years on underwater egress for seaplanes.

1.1.2 **Reason for change:** The revision is made to include life jacket or flotation device requirement for seaplane operation and underwater egress training for general aviation flight crew.
