**WEDNESDAY, 12 JUNE 2024  
FOR IMMEDIATE RELEASE**

**CAAM EXTENDS TEMPORARY SUSPENSION OF SYSTEMATIC AVIATION  
SERVICES AIR OPERATOR CERTIFICATE (AOC)**

PUTRAJAYA – The Civil Aviation Authority of Malaysia (CAAM) extends the temporary suspension of the Air Operator Certificate (AOC) of Systematic Aviation Services Sdn. Bhd. (SAS), pursuant to regulation 193(3) of the Civil Aviation Regulations 2016 for 52 days effective from 10 June 2024 until the end date of SAS AOC validity on 31 July 2024.

During this suspension period, SAS is expected to diligently work towards compliance with all regulatory requirements and the timeline to obtain the appropriate approval from the Malaysian Aviation Commission (MAVCOM) in order to resume operations safely.

As the technical regulator of the Malaysian aviation industry, CAAM oversees the technical aspects of air operators to ensure that all safety and security standards are met.

CAAM issues an AOC to authorize an air operator to engage in specified aircraft operations and among the key aspects that are assessed for an AOC issuance and renewal are the capabilities of the air operator to conduct safe operations and in accordance with the provisions of the operations specification.

CAAM carries out a detailed safety audit to assess the capability and competency of the air operator in the areas of commercial air transport, operations and airworthiness.
