**CAAM & AEROTHAI SIGN AGREEMENT ON
AIR TRAFFIC SERVICE COORDINATION PROCEDURE (ATSCP)**

Malaysia & Thailand strengthen bilateral cooperation in air navigation services

SEPANG, SELANGOR - The Civil Aviation Authority of Malaysia (CAAM) marked a significant milestone in strengthening regional air navigation cooperation with the signing of Air Traffic Service Coordination Procedure (ATSCP) with Aeronautical Radio of Thailand Ltd. (AEROTHAI) at a ceremony held in Sepang, Selangor, today.

This joint agreement, signed by Dato' Captain Norazman bin Mahmud, Chief Executive Officer of CAAM and Mr. Sunun Nimfuk, Executive Vice President and Chief Operation Officer, underscores the shared commitment of both nations to enhance air traffic management and foster seamless connectivity in the region. It is a pivotal agreement aimed at optimizing air traffic management between the two countries. The procedure is designed to streamline operations, improve coordination, and ensure safer and more efficient air traffic flows across Malaysian and Thailand airspace.

The signing ceremony held in conjunction with a special technical coordination meeting provides an invaluable platform for delegates from Malaysia and Thailand to share expertise and strategies to strengthen bilateral cooperation in air navigation services. The discussions focused on innovative approaches to improving air navigation efficiency, increasing capacity, and addressing the evolving demands of the aviation industry.

Dato' Captain Norazman bin Mahmud and Dr. Nopasit Chakpitak, President of AEROTHAI expressed their satisfaction with the outcomes of the meeting and the signing of the ATSCP. Both leaders emphasized the importance of continued partnership, highlighting the mutual benefits that come from close collaboration in advancing air navigation services. "This agreement reflects our shared vision for a future-ready aviation sector that prioritizes innovation, safety, and sustainability," said Dato' Captain Norazman bin Mahmud.

Press Release

Dr. Nopasit Chakpitak echoed these sentiments, stating, “The ATSCP marks a significant step forward in our efforts to enhance regional airspace management. By working together, we can ensure the continued growth and connectivity of our aviation networks, benefiting both our nations and the broader region.”

As the aviation industry continues to evolve, CAAM and AEROTHAI reaffirm the commitment to fostering innovation, enhancing cooperation, and ensuring sustainable growth. This landmark agreement represents a significant stride towards achieving greater efficiency and connectivity in air navigation, underscoring the shared dedication of Malaysia and Thailand to advancing regional aviation excellence.

About CAAM

The Civil Aviation Authority of Malaysia (CAAM) is the regulatory body that oversees and ensures the safety, security, and efficiency of civil aviation in Malaysia. CAAM provides robust oversight across air navigation services, aviation personnel licensing, and civil aviation operations while fostering innovation and maintaining a high level of compliance with the International Civil Aviation Organization (ICAO) standards. CAAM also oversees air traffic management, ensuring the safe, efficient, and orderly flow of air traffic within Malaysian airspace through the implementation of advanced technologies and adherence to global best practices.

About AEROTHAI

Aeronautical Radio of Thailand Limited (AEROTHAI) provides air traffic management services in Thailand. With a focus on innovation and collaboration, AEROTHAI plays a pivotal role in enhancing regional connectivity and ensuring the safety and efficiency of airspace operations.
