CHIEF DIGITAL & INNOVATION STRATEGY OFFICER

Job Description

Responsible for leading the development and implementation of the aviation authority's digital and innovation strategy, driving digital transformation, fostering innovation, ensuring robust Information Technology (IT) management and cybersecurity, and leveraging data analytics to enhance regulatory effectiveness, operational efficiency and safety within the aviation industry.

Qualifications for Appointment

Candidates must possess the following criteria:

a) Citizenship

- Malaysian citizen.

b) Academic & Professional Qualifications

- A Bachelor's Degree in Computer Science, Information Technology or Computer Engineering from a higher education institution recognized by the Government, or an equivalent qualification.
- Related Master's degrees are given priority.

c) Additional Requirements

- At least eighteen (18) years of experience in the field of IT.
- At least twelve (12) years of experience in a management or leadership role.
- Experience within the aviation industry will be an added advantage.
- Strong strategic and critical thinking capabilities in the management and delivery of IT functions.
- Demonstrated ability to keep up with evolving IT trends, technologies, and best practices.
- Proven competence in planning, managing, and executing IT projects.
- Proficiency in using productivity software such as Microsoft Office at a good level.
- Proficiency in using project management and documentation tools at a good level.
- Effective people management and communication skills.

- Strong interpersonal skills, including stakeholder engagement and relationship building.
- Good verbal communication skills and effective stakeholder management.
- Possess extensive industry experience with the ability to apply professional concepts and methodologies to solve complex problems innovatively.
- Excellent understanding of business operations, processes, and procedures.
