*Recruitment is subject to available vacancies, and only shortlisted candidates will be contacted for interviews.

SENIOR DIRECTOR, ECONOMIC & COMPETITION

Job Description

Responsible to lead the strategic planning, development, and implementation of CAAM's aviation economic and competition regulatory functions. This includes guiding research and industry analysis, supporting policy development, and collaborating with regulatory divisions to ensure alignment with ICAO standards, national legislation, and best practices. The role also includes producing high-impact aviation market reports and supporting data-informed decision-making to promote a competitive and resilient aviation sector in Malaysia. The role ensures that aviation markets are competitive, transparent, and economically sustainable, while advancing consumer welfare and supporting national aviation policy objectives.

Job Information

- **Department:** Economic and Competition
- **Job Position:** Senior Director
- **Type of Employment:** Permanent

Qualifications for Appointment

Candidates must possess the following criteria:

a) Citizenship

- Malaysian citizen.

b) Academic & Professional Qualifications

- Bachelor's Degree in Economics, Public Policy, Aviation Management, or related field.
- Master's Degree or professional certifications in competition law or regulatory economics are an advantage.
- Minimum fifteen (15) years of experience in economics, regulation, or aviation policy.
- At least five (5) years in a senior leadership or strategic policy role.
- Experience in stakeholder engagement and government/regulatory liaison is essential.

c) Skills and Competencies

- Deep understanding of aviation industry economics, competition law, and regulatory framework.
- Strategic thinking and ability to manage cross-functional coordination.
- Strong leadership, communication, and stakeholder management capabilities.
- Excellent report writing, data interpretation, and presentation skills.
- Knowledge of ICAO Annexes and Malaysian aviation regulatory structure.
