SENIOR EXECUTIVE, NETWORK & SECURITY OPERATIONS

Job Description

To support the planning, implementation, operation and continuous improvement of CAAM's network and cybersecurity environment by coordinating secure network architecture and connectivity, security monitoring and automation, vulnerability and threat management, incident response, security compliance, and disaster recovery. The position contributes to reliable, resilient and secure digital services that support CAAM's operational, regulatory and business requirements.

Job Information

- **Department:** Digital & Innovation Strategy
- **Job Position:** Senior Executive
- **Type of Employment:** Permanent

Qualifications for Appointment

Candidates must possess the following criteria:

a) Citizenship

- Malaysian citizen.

b) Academic and Professional Qualifications

- Bachelor's Degree in Computer Science, Information Technology, Cybersecurity, Network Engineering, or a related field from a higher education institution recognized by the Government.
- Professional certifications such as CCNA/CCNP, CompTIA Network+/Security+/CySA+, CEH, ITIL or ISO/IEC 27001 are an added advantage.
- Minimum five (5) years of relevant experience in enterprise network, cybersecurity operations, infrastructure or a related ICT environment.
- Practical experience in network operations, security monitoring, vulnerability management, incident response, disaster recovery and vendor coordination; experience in a regulated or critical-service environment is preferred.
- Knowledge and experience in Air Traffic Management and/or aviation industry is an advantage.

c) Skills and Competencies

- Sound knowledge of TCP/IP, routing, switching, Wi-Fi, VPN, firewalls, network segmentation, cloud connectivity and high-availability design.
- Working knowledge of endpoint security, identity and access management, vulnerability tools, threat intelligence and incident-response practices.
- Strong analytical, troubleshooting, documentation, project coordination, vendor-management and risk-assessment skills.
- Effective written and verbal communication in Bahasa Melayu and English, with the ability to work under pressure and coordinate cross-functional response activities.
